Physical hazards	Not classified.
Health hazards	Not classified.
Environmental hazards	Not classified.
OSHA defined hazards	Not classified.
Label elements	
Hazard symbol	None.
Signal word	None.
Hazard statement	Not available.
Precautionary statement	
Prevention	Not available.
Response	Not available.
Storage	Not available.
Disposal	Not available.
Hazard(s) not otherwise classified (HNOC)	None of the ingredients have been classified as carcinogens according to EU, IARC, MAK, NTP, OSHA or ACGIH.
Supplemental information	This product is not classified as hazardous according to OSHA CFR 1910.1200 (HazCom 2012).

3. Composition/information on ingredients

Mixtures

Line

Chemical name	Common name and synonyms	CAS number	%
Styrene acrylate copolymer		Proprietary	<85
Paraffin wax		Proprietary	<10

Chemical name	Common name and synonyms	CAS number	%
Black Pigment*		Proprietary*	<5
Composition comments	This product has been evaluated using criteria Communication Standard).	a specified in 29 CFR 1910.120	0 (Hazard
	*Proprietary		
4. First-aid measures			
Inhalation	Move person to fresh air immediately. If irritat	tion persists, consult a physiciar	۱.
Skin contact	Wash affected areas thoroughly with mild soa develops or persists.	ap and water. Get medical atten	tion if irritation
Eye contact	Do not rub eyes. Immediately flush with large least 15 minutes or until particles are remove		
Ingestion	Rinse mouth with water. Drink one to two glas attention immediately.	sses of water. DO NOT induce	vomiting. Get medica
Most important symptoms/effects, acute and delayed	Difficulty in breathing. Coughing.		
Indication of immediate medical attention and special treatment needed	Treat symptomatically.		
General information	Ensure that medical personnel are aware of t protect themselves.	he material(s) involved, and tak	e precautions to

••••••••••••••••••••••••••••••••••••••	
Suitable extinguishing media	Dry chemical, foam, carbon dioxide, water fog.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Firefighters should wear full protective clothing including self contained breathing apparatus.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Wear appropriate protective equipment and clothing during clean-up. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits. See Section 8 of the SDS for Personal Protective Equipment.
Methods and materials for containment and cleaning up	Avoid the generation of dusts during clean-up. Use explosion proof electric equipment. Collect dust using a vacuum cleaner equipped with HEPA filter. The product is immiscible with water and will spread on the water surface. Stop the flow of material, if this is without risk. Sweep up or vacuum up spillage and collect in suitable container for disposal.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Minimize dust generation and accumulation. Use local exhaust ventilation. Avoid prolonged exposure. Practice good housekeeping.
Conditions for safe storage, including any incompatibilities	Store in tightly closed original container. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

US. OSHA Table Z-1 Limits f	for Air Contaminants (29 CFR 1910.	1000)	
Components	Туре	Value	
Black Pigment	PEL	3.5 mg/m3	

US. ACGIH Threshold Lim			_
Components	Туре	Value	Form
Black Pigment	TWA	3 mg/m3	Inhalable fraction.
Paraffin Wax	TWA	2 mg/m3	Fume.
US. NIOSH: Pocket Guide Components	to Chemical Hazards Type	Value	Form
Black Pigment	TWA	0.1 mg/m3	
Paraffin Wax	TWA	2 mg/m3	Fume.
Biological limit values	No biological exposure limits noted for	the ingredient(s).	
Exposure guidelines	USA OSHA (TWA/PEL): 15 mg/m3 (To	• • • •	ole Fraction)
	ACGIH (TWA/TLV): 10 mg/m3 (Inhalat	ole Particulate) 3 mg/m3 (Re	spirable Particulate)
Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. If engineering measures are not sufficient to maintain concentrations of dust particulates below the Occupational Exposure Limit (OEL), suitable respiratory protection must be worn. If material is ground, cut, or used in any operation which may generate dusts, use appropriate local exhaust ventilation to keep exposures below the recommended exposure limits.		
Individual protection measure	s, such as personal protective equipme	nt	
Eye/face protection	Wear safety glasses with side shields	(or goggles).	
Skin protection			
Hand protection	Rubber gloves are recommended. Was	sh hands after handling.	
Other	Protection suit must be worn.		
Respiratory protection	No personal respiratory protective equipment required under normal conditions of use. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits.		
Thermal hazards	Wear appropriate thermal protective cl	othing, when necessary.	
General hygiene considerations	Keep away from food, drink and anima after handling the product.	ll feeding stuffs. Wash hands	before breaks and immediately

9. Physical and chemical properties

-	
Appearance	
Physical state	Not available.
Form	Solid. Fine powder
Color	Black.
Odor	Odorless
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or expl	osive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.

Vapor pressure	Not available.
Vapor density	Not available.
Solubility(ies)	
Solubility (water)	Insoluble in water.
Solubility (other)	Partially soluble in toluene, chloroform and tetrahydrofuran
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	> 392 °F (> 200 °C)
Viscosity	Not available.
Other information	Not available.
Oxidizing properties	No information available.
10. Stability and reactivit	у
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Stable under normal storage conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Avoid temperatures exceeding the decomposition temperature. Contact with incompatible materials.
Incompatible materials	This product may react with strong oxidizing agents.
Hazardous decomposition products	Carbon monoxide and carbon dioxide.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Dust may irritate respiratory system. Prolonged inhalation may be harmful.
Skin contact	Dust or powder may irritate the skin.
Eye contact	Dust may irritate the eyes.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Not available.

Information on toxicological effects

Acute toxicity

Based on available data, the classification criteria are not met.
LD50/oral/rat >5000 mg/kg.

Components	Species	Test Results
Black Pigment		
<u>Acute</u>		
Oral		
LD50	Rat	> 10000 mg/kg
Skin corrosion/irritation	Based on available data Not a known irritant. (O	n, the classification criteria are not met. ECD 404).
Serious eye damage/eye irritation	Based on available data Not a known irritant. (O	i, the classification criteria are not met. ECD 405).
Respiratory or skin sensitization	ı	
Respiratory sensitization	Not a respiratory sensit	zer.
Skin sensitization	This product is not expe	cted to cause skin sensitization.
Germ cell mutagenicity		n, the classification criteria are not met. est strains: Salmonella typhimurium).
Carcinogenicity	Based on available data	, the classification criteria are not met.

IABC Monographs, Overall	Evaluation of Caroinogonicity
Not listed.	Evaluation of Carcinogenicity
	ed Substances (29 CFR 1910.1001-1053)
Not listed.	
	ogram (NTP) Report on Carcinogens
Not listed.	
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure	Based on available data, the classification criteria are not met.
Specific target organ toxicity - repeated exposure	Based on available data, the classification criteria are not met.
Aspiration hazard	Based on available data, the classification criteria are not met.
Further information	Complete toxicity data are not available for this specific formulation Refer to Section 2 for potential health effects and Section 4 for first aid measures.
	In a study in rats (H.Muhle) by chronic inhalation exposure to a typical toner, a mild to moderate degree of lung fibrosis was observed in 92% of the rats in the concentration(16mg/m3) exposure group, and a minimal to mild degree of fibrosis was noted in 22% of the animals in the middle (4mg/m3) exposure group. But no pulmonary changes was reported in the lowest (1mg/m3) exposure group, the most relevant level to potential human exposures.
12. Ecological information	n
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	No data is available on the degradability of any ingredients in the mixture.
Bioaccumulative potential	Not available.
Mobility in soil	Not available.
Other adverse effects	Not available.
13. Disposal consideratio	ns
Disposal instructions	Dispose of in compliance with federal, state, and local regulations. Do not shred toner cartridge, unless dust-explosion prevention measures are taken. Do not put toner container into fire; heated toner may cause severe burns. Do not incinerate. Do not allow this material to drain into sewers/water supplies.
	HP's Planet Partners (trademark) supplies recycling program enables simple, convenient recycling of HP original inkjet and LaserJet supplies. For more information and to determine if this service is available in your location, please visit http://www.hp.com/recycle.
14. Transport information	
ООТ	
Not regulated as dangerous g	joods.
Not regulated as dangerous g	joods.
Not regulated as dangerous g	joods.
ADR	
Not regulated as dangerous g	joods.
Further information	Not a dangerous good under DOT, IATA, ADR, IMDG, or RID.
15. Regulatory informatio	n
US federal regulations	US EPA TSCA Inventory: All chemical substances in this product comply with all rules or orders under TSCA.
Toxic Substances Control A	Act (TSCA)
TSCA Section 12(b) Exp	port Notification (40 CFR 707, Subpt. D)
Not regulated.	
CERCLA Hazardous Substa Not listed.	nce List (40 CFR 302.4)

	ase notification
