PRODUCT DESCRIPTION

Sanitizing detergent by mechanical action containing stabilized HYDROGEN PEROXIDE. Ideal for the hygiene of worktops, shelves, beds, wardrobes, desks, shelves, equipment, telephone handsets, clothes, mattresses and all washable surfaces. Particularly suitable for applications in hospital, community, hotel, food processing industry and catering. Suitable for the application of HACCP self-control plans.

METHOD OF USE

Ready to use product. Spray directly on the surface to be sanitized in order to reach all areas affected by the operation, leave to act for at least a minute and at the end wipe with a cloth or disposable paper to remove the dirt. The product contains fluorescent pigments visible with the use of UV lamps. If used on surfaces that come into direct contact with food or with fabrics in contact with the respiratory system (for example masks), rinse thoroughly with water.

CHEMICAL AND PHYSICAL PROPERTIES

Physical state: Transparent liquid
Color: Light blue
Odor: Balsamic scent
pH (on as it is at 20 ° C): 4.0 ± 0.5
Hydrogen peroxide for packaging: 3.3-3.5%
Melting point: $<0 \text{ } ^\circ \text{C}$
Boiling point: $> 100 \text{ } ^\circ \text{C}$
Flash point: Not flammable
Solubility in water (20 ° C): Complete
Specific weight (20 ° C): $1.02 \pm 0.05 \text{ g / ml}$
Phosphorus content (as P): $<0.5\%$
