

58GE130

ENERGY+ 125MM CORDLESS ANGLE GRINDER

BRAND: GRAPHITE

The 125mm Energy+ 18V cordless angle grinder 58GE130 by GRAPHITE is a cordless powered tool with the Energy+ system. It is compatible with 18V lithium-ion batteries. The recommended battery capacity is 4 Ah. It is characterised by reaching 10000 revolutions per minute and an M14 spindle thread. Equipped with a 125 mm diameter blade, it allows comfortable cutting of various materials. The two-position side handle and spindle lock make planned tasks easier and faster. This grinder model also features a keyless guard assembly. Its ergonomic shape makes work more pleasant. The GRAPHITE tool is recommended for DIY enthusiasts.
