WATER PUMP PLIERS 250MM, CRV

BRAND: NEO TOOLS

Pipe pliers, 250 mm, 0-38 mm 02-412 NEO are a high quality tool for professionals and DIY enthusiasts who need to grasp and retain pipes or different kinds of angular objects with flats, like hex nuts of different sizes. The pliers' jaws can be set to anywhere between 0 and 38 mm. The tool is made of premium-grade CrV steel and the ergonomic handles are overlaid with a universal, durable plastic material. The moving jaw pivot can be placed in any of the 7 detents for a quick and easy setting of the jaw clearance. The QuickFix feature comes handy when working with the same-size objects in places that are difficult to reach.

Product features:

- Dedicated for grasping and retaining pipes or angular objects
- Moving jaw pivot with 7 detents
- Ergonomic handles
- Serrated jaw profile for an improved grip
- Narrow jaw head for easy access to difficult locations
- Sure grip
- Safe to use

Material:

- CrV steel grade jaws
- Plastic handle grip

Jaw clearance range:

- 0 - 38 mm
