

10A717

WALL BOARD SAW, 150MM, HARDENED TEETH**BRAND: TOPEX**

TOPEX wallboard saw with 150 mm blade (ref. no. 10A717). It has thicker and stronger blade than other saws and is designed for cutting holes in cardboard gypsum panels. Blade is made of high quality hardened steel. Two sided teeth sharpening reduces cutting resistance. Ergonomic plastic handle allows to guide the saw precisely, and anti slip coating prevents the tool from slipping off hands, thus ensuring high work comfort. TOPEX brand is oriented towards DIY enthusiasts.
