uni
MITSUBISHI PENCIL

Introduction

uni sets a new standard with a newly developed ink. Ideal characteristics realized by the quick-drying "NEW ROLLERBALL INK", which achieves a new, smooth and light feel. Quick and light writing does not blur and stays bold. Plus, it dries in a flash. Enjoy the best writing performance of uni-ball history with what deserves to be called a new-generation pen.

A good partner for a busy executive who needs to write as much as possible in a short amount of time.

Quick-drying, therefore suitable for signatures and left-handed people.
