

Product Information

as per 91/155/EWG

Page 1 of 1

Revised : 2012-09-05
Version : 6030/1

1. TRADE NAME

STABILO® pointball®

2. ARTICLE NUMBER

6030/..

3. SUPPLIER DETAILS

Schwan-STABILO Schwanhaeusser GmbH & Co.

Schwanweg 1, D-90562 Heroldsberg

Telephone No. : (++911) 567-1225 (Monday - Friday 9:00 a.m. to 4:00 p.m.)

Emergency Telephone No. : (++911) 567-4575 or (++911) 398 24 51

4. PHYSICAL AND SAFETY DATA

Retractable ball point pen with clip, white edge stripes. Gripzone consists of thermoplastic elastomere.

Dyestuffbased ball point pen paste in six colours. Contains appr. 0,7 g ball point pen paste.

Refillable. Paste is labelled as harmful and dangerous for the environment.

Do not use for marking skin.

When stored and used properly, no hazardous reactions can be expected. In case of fire, carbon monoxide (CO), carbon dioxide (CO₂) and with some colours nitric oxides (NO_x) will be set free as thermal decomposition products.

When not used properly, some colours may stain the skin, mucous membranes or clothing and fabrics. In some materials, the stain might be permanent.

In case of contact with the eyes, rinse out open eye thoroughly under running water for several minutes. If complaints persist, contact an ophthalmologist.

Based on the EEC-Directive 91/155, this commercial product is not a hazardous substance, hazardous mixture or a particular product with respect to the German Regulation on Dangerous Substances (Gefahrstoff-Verordnung). Therefore a Safety Data Sheet is not required.

5. TRANSPORT INFORMATION

Not classified as dangerous goods with respect to the transport regulations.

6. ECOLOGICAL INFORMATION / DISPOSAL CONSIDERATIONS

The casing, cap consist of polypropylene. If recycling is not possible,

the writing instruments may be added to the household waste in small quantities.

Larger quantities are to be disposed of under compliance with local public authority regulations, e.g. at a suitable waste disposal site or incinerator.

Only small quantities of dyes are contained in the inks. They are, however, very durable-on account of their intended use and therefore biodegradability in normal conditions in sewage works or in surface waters is difficult. They can, however, be sufficiently adsorbed in the activated sludge and eliminated from the water.

8. OTHER INFORMATION

The information herein is based on our present state of knowledge and on data considered to be accurate as of the date of preparation of this Product Information and is intended to describe our products from the point of view of safety requirements. However, no warranty of representation expressed or implied is made as to the accuracy or completeness of the foregoing data and safety information. The user assumes all liability for any damage or injury resulting from the abnormal use from any failure to adhere to recommended practises or from any hazard inherent in the nature of the product. The article and its packaging materials contain no substances included on the candidate list (date 2012-06-18) according to article 59 (1,10) of Regulation (EC) No 1907/2006 (REACH) in a concentration above 0,1% weight by weight.
